Power	Standard 110V outlet

01 / SPACE

5 × 7 ft

Recommended capture area.
Allow space for the backdrop.

02 / SETUP

5 minutes

Approximate setup time.
Assemble, connect and capture.

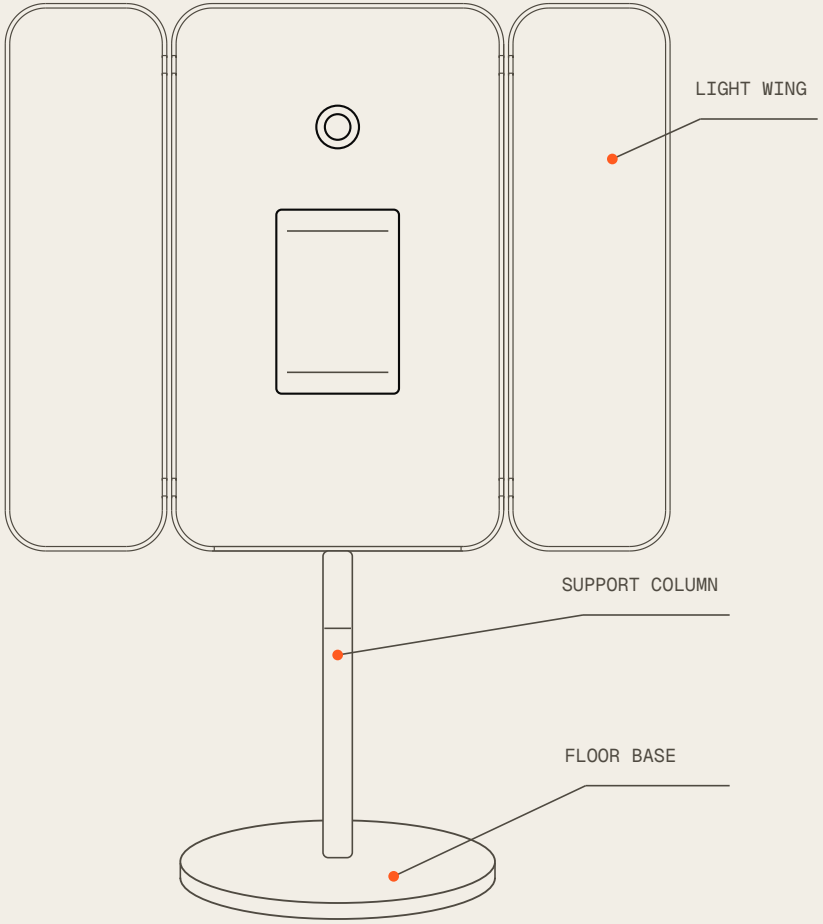

03 / CONNECTIVITY

Internet for delivery.
Offline capture supported.

Uploads queue until the connection returns.

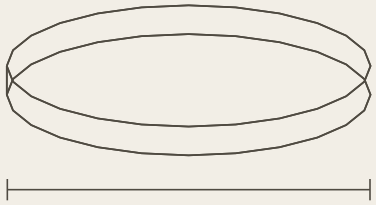

The hardware

01 / FRONT ASSEMBLY

CAD-derived housings. Assembly placement and front controls are illustrative; not an installation drawing.

02 / BASE DETAIL

MK2.4 CAD reference. Confirm base size against the supplied unit for site planning.

03 / HOUSING DIMENSIONS

Center	18.5 × 30.5 in
Each light wing	9 × 30.5 in

Width × height, MK2.4 CAD.

04 / CAPTURE & LIGHTING

Canon EOS 80D · 24.2 MP
Canon EF 24mm f/2.8 IS USM
Microsoft Surface Pro 9
Eight 2-ft LED tubes

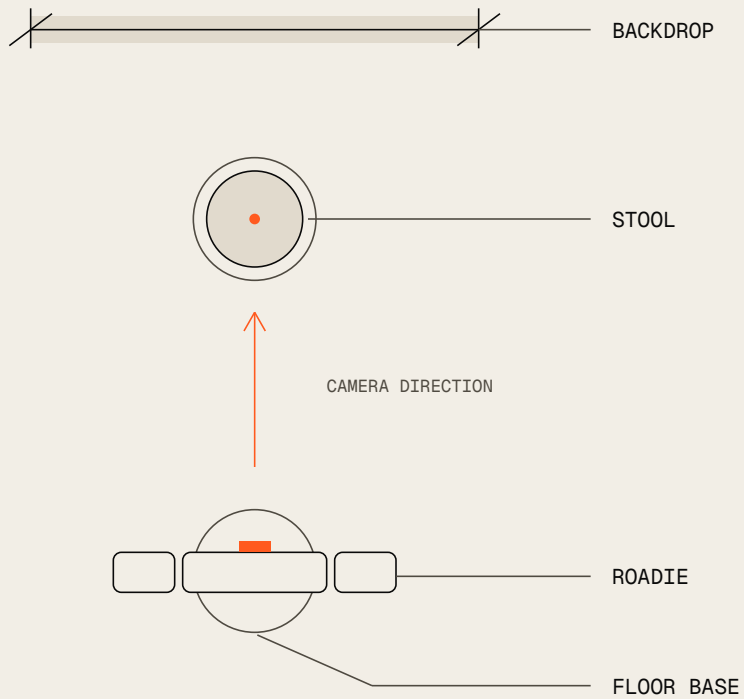

Component models describe the documented configuration; fleet units may vary.

EQUIPMENT & GEOMETRY

A complete capture space

SETUP & OPERATING AREA

01 / EQUIPMENT ARRANGEMENT

TOP VIEW / ILLUSTRATIVE PLACEMENT

Arrangement only. Equipment and spacing are not to scale; backdrop supports and access need site-specific clearance.

02 / INCLUDED

Roadie photo station
Stand and floor base
Stool
Backdrop
Two transport cases

03 / POSITIONING

Plan around the recommended 5 × 7 ft capture area. Position the stool facing the Roadie, with the backdrop behind it. Confirm total space for the backdrop supports and access.

04 / CONNECTIONS

Standard 110V power.
Internet for cloud upload and gallery delivery. Capture can continue offline; uploads queue until reconnection.
